INNOVATIVE APPROACHES TO HEALTHCARE MANAGEMENT

Self-Development for people with special needs to adapt and self-manage with physical, mental and social problems.

Dance offers Empowerment to people with special needs, enhancing the autonomic system. Every individual is one of a kind.

Andrew Greenwood, co-creator of Dance and Creative Wellness Foundation. Creator of the S2M Movement Platform. As an ambassador of Health Promotion, from personal experience dance has the power to assist in personal healing. Personal healing process, he believes starts within, focusing on nurturing and sustaining a creative and emotional life.

The approach is already accessible in Berlin, Sydney, Vienna and Amsterdam.

Switch2Move practitioners will offer tools and guidance to encourage novice learners to discover new realms through creative movement. Regardless of the individuals age, back grounds or personal physical or mental challenges.
